

North American-Chilean Chamber of Commerce

The Investment Opportunities in Chilean Lithium Special Contracts

Breakfast, Monday, June 18th, 2012

Pablo Wagner San Martin
Undersecretary of Mining of Chile

Lithium is the fuel of the future. As the world adopts more sustainable and advanced technologies, including electric and hybrid cars, solar energy, battery powered electronics and pharmaceuticals, lithium's importance in the market has been on a rapid ascendance and lithium production will remain a top priority for industrial development. Chile is one of the world's leading lithium producers, counting with more than 50 salt water deposits and possessing 33% of the worldwide lithium reserves, including the largest producing brine deposit in the world, the *Salar de Atacama*.
